FAX: 970-339-6564

Program Summary: As a Pharmacy Technician you will help the pharmacist package or mix prescriptions, maintain client records, refer clients to the pharmacist for counseling, assist with inventory control and purchasing, as well as collect payment and coordinate billing. This course combines 182-hours of classroom instruction with a 120-hour pharmacy externship to provide you with a complete learning experience. (Total – 302 Hours).

Course Fee: \$2,395.00 includes books, consumable supplies, externship, and course completion certificate.

Financial Assistance: Students with a need for financial assistance may contact SLM Financial for a loan, the application process is easy! Contact your college for more details.

Community Job Survey: Starting pay \$12 – 20 per hour. Because of the increased pharmaceutical needs of a larger, older population, growth in this occupation will be almost as fast as the average for all others in the state.

Certification: Upon successful completion graduates will receive a certificate of completion and become eligible to apply for registration as a Pharmacy Technician in their state and be prepared to take the national Pharmacy Technician Certification Board (PTCB) exam.

Schedule: Designed for busy adults, classes held on Saturdays. Pharmacy externships coordinated by Boston Reed.

Pre-requisites: Minimum 18 years of age and high school completion or its equivalent. Students need competency in, or completion of a basic computer operations course. Students will be required to have access to the Internet, printing capabilities and an email address. A math and English pre-assessment test will be administered on the first class meeting to assure student success. Prior to placement in an externship, students will need to show proof of completion of CPR for the Healthcare Provider course, a health examination including TB testing and submission of a resume.

According to the US Dept. of Labor the need for Pharmacy Technicians is expected to grow 32% by 2014
